Manufacturer Expansion

LEADING ELECTRONICS MANUFACTURER UNDERGOES 200,000 SQ FT EXPANSION

CIS DESIGNS AND INSTALLS CABLING FOR PROJECT

OVER 2,500 CABLES CONNECTED TO OVER 750 WORKSTATIONS

OVERVIEW:

A nationally recognized tech company was undergoing a 200,000 sq ft expansion to support their engineering department.

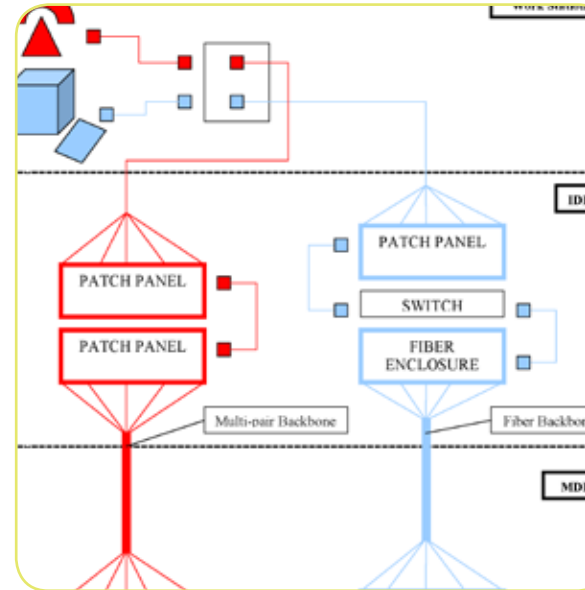

CIS created a project team which included a sales engineer, an RCDD certified project manager, a lead technician and several field technicians.

SERVICES PROVIDED:

- Installation of 5 new network closets
- Installation of Data Center
- Installation of a redundant backbone copper & air blown fiber
- Installation of 400,000 ft of Cat 6 cable
- Installation of 75,000 ft of 6-strand fiber
- Installation of 1,800 ft of 18-strand fiber

OUTCOME:

CIS successfully connected over 2,500 cables to over 750 workstations in the new facility. The new facility is now open and the communication system is operating smoothly.
